Overview

The International Organization for Standardization publishes a list of standard currency codes referred to as the ISO 4217 code list. Below, we list ISO 4217 codes for currencies in circulation, plus some (marked with an asterisk) that are not officially recognized by the ISO. This list excludes obsolete and old Euro-zone currencies.

Currency codes are composed of a country's two-character Internet country code plus a third character denoting the currency unit. For example, the Canadian Dollar code (CAD) is made up of Canada's Internet code ("CA") plus a currency designator ("D"). For a list of currency symbols like the dollar sign "$", the Pound sign "£", and the Euro sign "€", refer to our Currency Symbols page.
